8938-509/510/511/512

These new high-quality Katun toners are the latest in a growing line of color toners for use in Konica Minolta machines

Katun introduces an aftermarket alternative that provides OEM-equivalent quality, performance, and yields in these popular color applications. Like our well received Katun Performance color toners for use in C350-series applications, you will be impressed by the OEM-equivalent performance – these newest Katun toner cartridges provide a clear difference in image quality and color matching when compared to other aftermarket product offerings.

Benefits:

◆ Expanding Product Offering Provides More Profit Opportunities

Fresh on the heels of our recent, successful introduction of color toner cartridges for use in Konica Minolta C350-series applications, these Katun Performance products represent the latest in Katun's growing line of high-quality color toners for use in Konica Minolta bizhub color machines. Katun is committed to providing a comprehensive color product offering – helping you improve your profitability, now and in the future.

◆ Toner Quality You Can Trust; Color Reproduction You Can Count On!

These toners have been developed and rigorously tested to match Konica Minolta toner attributes in image density, half-tone reproduction, background imaging, yields and toner adhesion/fusing performance. The color matching properties of these toners are noticeably superior to that of other aftermarket products. Not only do you benefit from significant cost savings, you – and your customers – can do so without sacrificing performance. The proven performance of our color toners for use in C350-series applications confirms our dedication to quality.

◆ Improve Cost-per-Copy and Cost-per-Copy Competitiveness!

You can save more and significantly lower your cost-per-copy with these Katun Performance color toners -- especially on those tight-margin, cost-per-copy contracts.

Benefits (continued)

◆ 100% Compatible

As with all Katun Performance toners, these toners have been thoroughly tested to ensure complete forward and reverse compatibility with Konica Minolta toners. End users can easily install these toner cartridges alongside OEM toner and/or after OEM toner has been used, and avoid degradation of print/copy quality.

◆ Replacement Ozone Filter Included

Unlike most aftermarket competitors, Katun includes a replacement ozone filter with every black toner cartridge, at no additional cost to you, to help ensure your machine is maintained properly.

Product Characteristics
