

Katun® Performance™ Toners for use in

## Canon MF 6500-series, LaserClass 810/830

### Copier/Printer/Fax (MFPs)

Katun PN: 36589  
OEM PN: 1153B001AA (FX11)  
0264B001AA (CARTRIDGE 106)

**This universal Katun® Performance™ remanufactured toner cartridge is the latest addition to a very broad line of quality supplies for use in Canon machines**

*Note: Images shown represent Katun products in this category.*

#### North America/South America

The introduction of this new Katun® Performance™ toner cartridge for use in IMAGECLASS MF 6500-series and LASERCLASS 810/830 applications, adds to an already extensive line of new and remanufactured, color and monochrome toner cartridges for Canon office equipment, and gives you another high-quality supplies option. By selecting a low-cost OEM alternative that delivers reliable, industry-leading performance, you reduce your expenses while providing your customers with the cost savings they need right now! *Choosing Katun® Performance™ toner has always been a wise and reliable choice, and is even more so today given the current economic environment.*

#### Benefits:

◆ **Expanded Product Offering Provides More Revenue and Greater Profit Opportunities**

Katun customers now have a quality alternative to high-cost OEM supplies for a wide range of Canon printer and fax-based MFPs. This includes many current models designed for the home office / small office environment as well as fax models designed for medium to high volume business users. With this universal Katun® Performance™ remanufactured toner cartridge, dealers, distributors, and office supply retailers can confidently offer their customers a means to reduce their printing costs without sacrificing quality.

◆ **Universal Cartridge Allows You to Reduce Inventory Levels Without Affecting Service Levels**

This universal Katun® Performance™ brand remanufactured toner cartridge replaces multiple OEM SKUs – providing outstanding performance in both IMAGECLASS 6500-series and LASERCLASS 810/830-series machines. Dealers, distributors and office supply retailers can reduce their inventory costs by carrying one universal Katun SKU vs multiple OEM cartridges.

◆ **Expense Reduction – When You and Your Customers Need It Most!**

Let's face it, in today's economic environment, what business, whether small, large, or home-based, isn't looking for ways to cut expenses? This Katun® Performance™ toner offers significant savings versus OEM supplies, without sacrificing product performance. Offer your customers a reliable way to reduce their costs now and it will pay big dividends in the years ahead.

◆ **High Remanufactured Quality**

This remanufactured toner cartridge fits, installs and performs the same as the OEM cartridge(s), making the transition from OEM to Katun® Performance™ seamless for the customer.

## Machine Overview

Model	Speed (ppm)	Mfg Status	Markets	Market / Sales Channel	Toner Cartridge PN

## Product Characteristics

Metrics	LASERCLASS 810/830	IMAGECLASS MF 6500 -Series	Katun
Part number(s)	1153B001AA / FX11	0264B001AA / CARTRIDGE 106	36589
Price per/sold in	Priced per cartridge	Priced per cartridge	Priced per cartridge, 1 cartridge per Master
Yield/cartridge*	4,500 @ 5% coverage	5,000 @ 5% coverage	4,500 @ 5% coverage for 153B001AA 5,000 @ 5% coverage for 0264B001AA

\*OEM Stated Yield based on 5% coverage. Actual yield may vary depending on machine, environment, and usage conditions. The overall lower stated yield in the LASERCLASS applications is generally a result of lower image resolution and greater toner consumption in fax mode and a higher percentage of pages being produced in fax mode verses that of the printer- focused IMAGECLASS series.
