

Canon imageRunner C5180/CLC 4040-series

Digital Copier/Printers

Katun PN: 37568, 37569, 37570, 37571
OEM PN: See chart on page 2

Receive exceptional image quality for business color documents as well as significant cost savings versus the OEM toner!

With over five billion pages* already produced using Katun® Business Color toners for use in Canon iR C3200/C3220-series and iR C4080/4580-series applications, the launch of these Katun® toners for use in Canon iR C5180/CLC4040-series machines strengthens Katun's tradition of providing excellent color quality for Canon office equipment. These toners are ideal for the office environment, featuring OEM-equivalent image density, overall print quality and yield, while also offering excellent color reproduction and *significant cost savings versus the OEM toner*.

Benefits:

◆ Optimized for Performance – Ideal for Business Color Use

These Katun® Business Color toners are the perfect choice for departments and workgroups that primarily print business color documents, including spreadsheets, PowerPoint presentations, office memos, etc. These toners offer OEM-equivalent image density, overall print quality and yields, and are ideal for the sharp text and line details necessary to add emphasis to important business documents. While end-users in business color environments don't typically expect the precise color matching that customers often require in graphics environments, they do still have high expectations when it comes to color reproduction and print quality – and these Katun® Business Color toners will easily meet or exceed these expectations.

◆ Improve Your Competitiveness and Overall Value!

Dealers using Katun® Business Color toners will appreciate the significant cost savings versus the OEM toner, improving their bottom line profitability on existing machines, while also providing an advantage when bidding on competitive cost-per-copy contracts!

◆ Full Compatibility

These color toners have been tested and approved for forward and reverse compatibility with OEM toner. Katun® toner can be installed before or after OEM toner, with no degradation in copy quality.

◆ Proven Performance and Satisfaction

Katun® Business Color toners for use in Canon iR C3200-series & iR C4080-series applications are being used by thousands of satisfied dealers and distributors. When these same Katun customers purchase Katun® Business Color toners for use in Canon iR C5180/CLC4040-series machines, they will be equally delighted with the overall quality, value and performance.

*Estimate based on number of toner cartridge sold times estimated yield per cartridge.

Machine Overview

| Model | Speed (ppm) | Intro Date | Mfg Status | Markets |
